

## **Citizenship by naturalization**

### **Question:**

How to speed up getting citizenship by naturalization?

### **Response:**

Dear Reader,

There is no way to speed up the getting of citizenship by naturalization. This procedure takes a long time and is a strict procedure.

If you have submitted your application through the appropriate manner and you meet the requirements, you have to wait for the response of Civil Registry and Migration Department of Cyprus.

The only think that you can do is to have a contact with CRMD and to be informed in what stage the examination of your application is.

The examination of the application and the granting of the Cypriot Citizenship by Naturalization could take up to 5 years to be completed.
